

USER MANUAL

Please read these instructions carefully before installing and operating the appliance.

IMPORTANT SAFETY INSTRUCTIONS

- Please read and follow all instructions before operating the air blower.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair or adjustment.
- The air blower should never be left unattended when in use.
- This appliance is not intended for use by person (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for the safety.
- To reduce the risk of fire or electric shock, do not use this blower with any solid-state speed control device.
- To reduce the risk of electric shock, disconnect power before servicing.
- No objects should cover the air intake when the air blower is in use. Sand, small stones or other objects should not be allowed to be sucked into the air blower.
- Under no circumstances should a finger or any sharp object be inserted into the air intake.

MAINTENANCE

WARNING: DISCONNECT THE POWER SOURCE BEFORE SERVICING.

NOTE: Never use gasoline, benzene, thinner, or any other chemicals for cleaning the blower.

To keep the air blower clean you can use a dry cloth or wipe the surface of the air blower.

Do not allow water to get into the motor.

Never clean the air blower in water.

The air blower should be stored indoor.
