

# USER MANUAL

## Instructions

The original combination is 0-0-0.  
To set your own combination please follow these steps:

- ① With the lock in the 0-0-0 position.
- ② Press down the reset button [A] with a pen or other tool until you hear a "click" sound.
- ③ Set your own combination by turning the dials [B]. For example, 8-8-8.
- ④ Push the button [C] in the direction of the arrow until you hear the "click" sound again, confirming that you have set your personal combination.

To set another combination please repeat the steps above.  
Please remember your combination— if you forget it, there is no way to open your lock.

**Warning:** If the cylinder is opened, please lock it again by turning it in the direction of the arrow to the red dot position (use any tool that fits in the cylinder)
